

Cleaning Chemicals

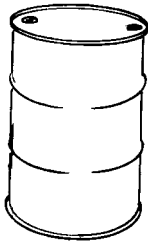

Enviro-Control Cleaner

Enviro-Control is a blend of surfactants that is formulated for recycle systems. It is low to moderate foaming and has limited oil emulsifying properties, while remaining a neutral pH effective cleaner. It is noncaustic and contains no thickeners or builders (fillers) which add to TDS. Available in concentrate form only.

<i>Item #</i>	<i>Description</i>	<i>Quantity</i>	<i>Ship Wt.</i>
EC-1-6S	Enviro-Control Cleaner	55 gallon - Concentrate	510 lbs.

Enviro-Blaster

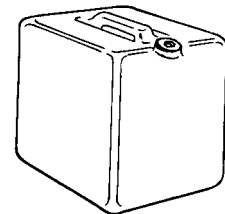

Enviro-Blaster is a cleaning compound formulated to rapidly remove soil, grease, and oil from machinery, vehicles, and heavy equipment. It has quick oil releasing properties (15 minutes), especially important for recycling and sewer discharging of wash water. Enviro-Blaster is safe to use on all surfaces, when used as directed, and is compatible with all RGF water processing systems.

<i>Item #</i>	<i>Description</i>	<i>Quantity</i>	<i>Ship Wt.</i>
EB-055	Enviro-Blaster	55 gallons - Ready to Use	502 lbs.

Water Clarifying Agents

Solids Clarifying Agent

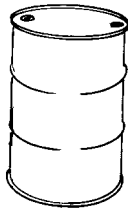

RGF's Solids Clarifying Agent is extremely effective at clarifying high solids laden recycle waste streams with low to moderate amounts of oils. The clarifying agent will dramatically increase your recycle water clarity. Typical applications include: Logging, Heavy Equipment Rental, Mining, Bulk Hauling, Construction, and Quarries. It can be added to recycle systems either weekly, bi-weekly or by continuous injection.

<i>Item #</i>	<i>Description</i>	<i>Quantity</i>	<i>Typical Treatment Levels</i>	<i>Ship Wt.</i>
CE-020	RGF Solids Clarifying Agent	5 gallons - Ready to Use	40 - 200 ppm or 5 - 20 oz. per 1,000 gallons	49 lbs.

Water Clarifying Agents

WC-1 Water Conditioner

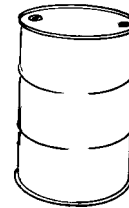

WC-1 is the most versatile water conditioner for closed-loop systems on the market. This all-purpose water conditioner is ideal for light to moderate oils and solids. Typical applications include: Heavy Equipment, Manufacturing, Car Washes, Waste Haulers, Trucking, Lumber, and Oil Field Service. It can be added to recycle systems either weekly, bi-weekly or by continuous injection.

Item #	Description	Quantity	Typical Treatment Levels	Ship Wt.
WC-1-5	WC-1 Water Conditioner - RU-5	5 gallon - Ready to Use	800 - 1,600 ppm or 0.75 -	52 lbs.
WC-1-55	WC-1 Water Conditioner - RU-55	55 gallon - Ready to Use	1.5 gallons per 1,000 gallons	500 lbs.

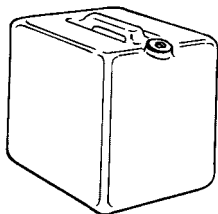

Emulsion Splitting Agent

RGF's Emulsion Splitting Agent is very effective for clarifying recycle streams with high levels of emulsions combined with suspended solids. Emulsion Splitting Agent is ideal for: Oil Service Companies, Heavy Equipment Facilities, Maintenance Facilities, Equipment Rentals and Degreasing Operations. It can be added to recycle systems either weekly, batch or by continuous injection.

Item #	Description	Quantity	Typical Treatment Levels	Ship Wt.
CE-021	RGF Emulsion Splitting Agent - 5	5 gallon - Ready to Use	12 - 160 ppm or 1- 20 oz.	51 lbs.
CE-022	RGF Emulsion Splitting Agent - 55	55 gallon - Ready to Use	per 1,000 gallons	495 lbs.

ULTRA-CHOICE

RGF's ULTRA-CHOICE has been formulated specifically for breaking highly emulsified oils from waste streams. ULTRA-CHOICE is ideal for: Marine Applications, Parts Manufacturers, Heavy Equipment Maintenance, and Rental Equipment Suppliers. In addition, ULTRA-CHOICE has been formulated to work with pressure spray equipment and can separate oils, grease, drawing compounds and flux. It can be used in batch applications or on a continuous use basis.

Item #	Description	Quantity	Typical Treatment Levels	Ship Wt.
CE-023	RGF ULTRA-CHOICE - 5	5 gallon - Ready to Use	1,500 - 2,500 ppm or 0.75 -	54 lbs.
CE-024	RGF ULTRA-CHOICE - 55	55 gallon - Ready to Use	1.5 gallons per 1,000 gallons	505 lbs.
